

Quality resources from the creator of...

Greg Arious and the Lexicons

The town of Prosaic was a dull, boring place. That was until a group of aliens, led by **Greg Arious**, arrived with a special gift.

Adapted from the popular download on the Primary Resources website this new version of 'Greg Arious and the Lexicons' has been completely redrawn, coloured and updated. It

features new material and comes complete with a teaching pack and activity sheets to help you get the best use out of the book in the classroom.

'Greg Arious and the Lexicons' has been designed to help teachers introduce the concept of synonyms and to demonstrate the use of a thesaurus to Key Stage 2 children.

It can also be used as a focus when looking at lots of other topics including different types of words (nouns, verbs, adjectives), antonyms (opposites), dialogue words and onomatopoeia.

The Windows CD-ROM contains:

- A printable colour version of the story (PDF file)
- A printable black and white version of the story (PDF file)
- A presentation of the story for interactive whiteboards/projectors (as a self running file)
- A teacher's guide with activity ideas (PDF file)
- A set of activity sheets linked to the text (PDF files)

You'll also receive free access to the downloads section on our website where you can obtain updates and new material.

Adobe Acrobat Reader 5 (or better) is required to view PDF files. This is available as a free download from Adobe in the unlikely event that you do not already have it installed.

I am ordering for a school as an individual
